

# THE GLEICHEN CALL

VOLUME XXIX NO. 36

GLEICHEN, ALBERTA, WEDNESDAY NOVEMBER 18, 1936 SUBSCRIPTION \$2.00 PER YEAR

## CURLING CLUB ELECT OFFICERS FOR ENSUING YEAR

A general meeting of the Curling Club was held in the Club Room of the Community Hall, for the purpose of organization and making arrangements for the season 1936-37. T. H. Beach occupied the chair. The treasurer, G. K. Phillips submitted a very favorable report. It was decided that out of town members should be charged a membership fee of \$2.50.

The following slate of officers was elected for the coming season: President, W. P. Piseau. Vice-President, W. J. Jeffers. Secretary, W. A. Reid. Treasurer, G. K. Phillips. Executive: W. Schmidt, S. Haskayne, D. MacDonald. Mr. Phillips was unanimously given free membership for this season.

Committee: J. Robinson, M. Bellinger and E. Wood. Draw committee for season: Appl. A. P. MacCallum, W. A. Reid and W. P. Piseau. Membership committee: Messrs. McKay, Haskayne, Jeffers and Galt.

It was decided that the executive should take immediate steps to put on a successful season in the curling rink and that the lunch counter should be in charge of the club. It was brought to the attention of the meeting that the North Star Oil Company will give prizes to this township this year and it is their suggestion that the township be held early so that the cup may be competed for during the rest of the season.

It was also decided that the fee should remain unchanged from the previous season, viz: \$5 for resident men; \$2.50 for ladies, non resident men and those under 20.

The executive was given power to hire a caretaker. The club is looking forward to a real season for this of Caledonian sport.

## TWO SIDES TO THE STORY

There's two sides to every story. In Alberta, and throughout Canada life insurance policyholders are beneficiaries should realize there is more to debt reduction legislation than easing of debt burdens. It goes deeper than that.

It is interesting to learn that 50 per cent of the electors, federal and provincial, are policyholders. Through the institution of life insurance, they have pooled their resources, their life savings, in order that their collective strength may withstand the storms and attacks that would bring financial disaster to the individual.

We also know that, despite war, epidemic, panic or depression, life insurance meets every call, pays claims promptly and in full in fact, during the past six years, it has distributed and is still distributing, over \$700,000,000 working day in the year to policyholders and beneficiaries.

Seventy-five per cent of this money has been, and continues to be, paid to those still living; the remaining twenty-five per cent going to beneficiaries of dead policyholders. In a word, life insurance is the hard earned savings of \$3,500,000 men and women in all walks of life. It is the greatest co-operative business in Canada. No one doubts its stability; no one questions the prudent direction of its business.

But—there are forces at work in Canada today which menace the security of every life insurance policyholder in Canada. In an effort to repair wrongs, legislators have gone to the extreme, and cancellation of public and private debts is going on or planned without regard to the debtors ability to pay.

It would seem to be in the interest of all concerned to stop and think for a moment that promises to pay should be observed to the limit that the debtor is able to pay, for the good of both the debtor and the life insurance policyholder—in thousands of cases one and the same person. Such a policy would not only preserve the good word and honesty of the debtor in the eyes of the outside world, but would also help to protect the life insurance on which his family may any day be forced depend.

## TRIAL FOR ARSON CREATES MUCH INTEREST

Maclyn Allen, a farmer living near Queenstown, was tried in the local police court last week on a charge of arson. The case attracted a lot of attention and the court room was crowded to the doors.

Flames in this case were added to by the knowledge having got abroad about the police dog Dale doing some wonderful tracking and also featuring the Gleichen detachment of R. C. M. P. in some smart detective work.

According to the evidence, Mr. Foffanoff, farmer of the Queenstown district, was awakened by a neighbor on the night of October 15th, about midnight Foffanoff's barn was on fire and he had been burning for some time, it being completely enveloped in flames at that time. One horse and two calves lost their lives, harnessed and the usual contents of a barn were destroyed. Mr. Foffanoff, suspected incendiarism and notified J. Ashby of the Gleichen R.C. M. P. and he, with Constable Thurston, proceeded to the scene early the following day investigation showed strange footprints near the barn and dog Dale was put on the scent.

Dale led the officers in a north-westerly direction for upwards of half a mile and stopped at a point where further tracks led the officers to suspect that a car had been parked. Lacking the car, they followed the trail across fields and finally came to a place where the tires had left an impression, they managed to obtain plaster casts of the tire tracks. They had previously photographed tire prints and armed with these they delved around the neighborhood until the finger of suspicion finally pointed to Mack Allen.

By searching the whole country, the police finally managed to secure possession of the actual tire which were on the car which had been parked near the scene of the fire in very case, managed to secure evidence that the accused had borrowed a tire just previous to the fire and returned it after that event.

Mr. Milvain, lawyer for the accused, put up a very keen defence but was unsuccessful in his effort to save the case thrown out. The evidence was entirely of a circumstantial nature but Magistrate W. McConn considered that the police had presented sufficient evidence to warrant remanding the accused for trial to a higher court.

The accused young man was released on bail in the amount of \$4,000, two gentlemen on the Gleichen district acting as bondsmen for the amount.

## VERY LARGE CROWD ATTEND ARMISTICE SERVICE

The Community Hall was packed to the doors on the occasion of the Armistice service, observed last Wednesday, Rev. J. W. House of the Old Sun Indian School, took charge of the service; Rev. J. Wilkinson following the reading of two very suitable verses, led in prayer, while Adj. J. Sutherland of Everdale Salvation Army Home read a portion of the Scriptures. Rev. Fr. Hyatt, was intended to be the speaker for the day, but was unavoidably absent until later in the service; Rev. Mr. House spoke in his place. Quite a number of organizations were grouped by themselves in the front of the hall. The 22nd Battery, was present; all the various Scout and Guide organizations were present, while in the centre was grouped the returned men, members of the Gleichen Branch of the B.E.S.I. Just before 11 o'clock all present left the hall and grouped around the cenotaph, where two minutes silence was observed—prayers were offered and the "Last Post" sounded by W. P. Piseau.

On Tuesday, December 22, a school concert will be arranged by the teachers and scholars of the Public and High School. It is the intention to make a small charge for admission so as to make the enterprise self supporting and possibly to have enough money over to form the nucleus of a fund that can be drawn upon for all school or room activities.

## St. Andrew's Church Celebrate 50th Anniversary Sunday

Next Sunday, November 22nd, St. Andrew's Church will hold its 50th anniversary or Jubilee Service at 11 a.m. The preacher for the occasion will be the Venerable Archdeacon J. W. Tims, who opened the first mission in Gleichen and took the lead in having St. Andrew's Church built. He will be assisted by Rev. C. W. Wilby, M. A. The Church was opened on Advent Sunday in 1886, and consecrated on September 11, 1887.

The church which was built of wood still stands in an excellent state of preservation. Very little repair work has been necessary. Some years ago a new shingle roof was put on and about the same time the exterior received a coat of paint. It was said that it was the second time the building had been painted. The first coat was of such excellent material that it showed very little effects of time and weather. About the year 1921 fire broke out in the basement and for a time it looked as if the building was doomed owing to the vast amount of smoke that was pouring out of the place. The seat of the blaze was finally discovered and put out in short order. Very little damage was done, smoke doing most of it.

**HISTORY OF ST. ANDREW'S**  
While steel was being laid between Gleichen, then known as the 12th siding west of Medicine Hat, and Calgary, the Rev. J. W. Tims, newly arrived to open a mission to the Blackfoot Indians, held services for some working for the C. P. R. in the section of section house and station, etc.

The first service was held in a tent, used by the carpenters and later, when he section house was erected in that building. Later, when the station was built, services were conducted in the dining room there. Services were held there regularly, and during the rebellion of 1885, when a number of military men were stationed here or the protection of the population, he waiting room could hardly accommodate the number who attended. In 1886 a fund was started for the erection of a suitable place of worship and with the assistance of the Society for Promoting Christian Knowledge and English Friends, and supported by nearly all the then inhabitants of the village and members of the Indian Department on the Blackfoot Reserve the money was raised. The Church was opened on Advent Sunday 1886, and among those present at the opening service was the Lieutenant-Governor of the North West Territories and his staff.

Mr. Tims held regular Sunday services here up to the time he was moved to the Sarcee Reserve, being assisted for a time by the Rev. H. G. Stockton, until his removal to Calgary. In 1895 Mr. Stockton took charge of the church and in 1900 it was placed in charge of the Rev. T. Castle who became first Rector of Gleichen and Strathmore and is now Rector of a large church near Wembley, London, Eng.

Another who for a year or two occupied the Rectory was the Rev. F. C. Cornish, now Archdeacon of Edmonton. As a young man, before ordination, Archdeacon Cornish was clerk of the Blackfoot Reserve and one of the original members of the congregation of St. Andrew's.

During vacancies at different periods the church was served by Canon Stockton, missionary on the Sarcee Reserve, to whom the congregation owed a great deal. The last Rector was Rev. J. R. Davies now Incumbent of St. Augustine's, Ogden, near Calgary. The church is now served by the Rev. C. W. Wilby, M.A., who resides at Strathmore.

It is interesting to note that Archdeacon Cornish, who built the church and preached the sermon at the opening fifty years ago will again (D.V.) preach at the Jubilee Service Sunday morning.

For fifty years the congregation has had the assistance of the Diocese in the support of the ministry, and now that the Diocese has lost so much

of its income from invested funds the congregation have an opportunity of showing its gratitude by contributing to the Emergency Appeal just issued.

By December 1, 1887 the entire indebtedness of the church has been paid off according to a financial statement issued at that date. The total cost including equipment was \$1,248.96.

From a well preserved copy of the Calgary Tribune dated Dec. 7, 1887 the following is taken:

"The first anniversary of the opening of St. Andrew's church was celebrated on St. Andrew's Day. The proceedings commenced with a special service in the church at half past four. Prayers were read by the Rev. J. W. Tims, the lesson by Rev. H. W. Gibson Stockton. At six o'clock about forty people sat down to a substantial dinner. At half past seven the Rev. J. W. Tims took the chair, and in a few preparatory remarks said that the church which was opened last year was \$350 in debt, was now free of debt and in addition to the raising of this sum a new organ had been placed in the church and the building had been painted. A program then followed.

The Rev. Mr. Tims then thanked the two committees who had worked so hard to make the anniversary a success. Mr. Bickerton proposed a vote of thanks to the ladies who provided the cakes, etc., which was seconded by Mr. Denison. The Rev. Mr. Stockton proposed a vote of thanks to the non-communited officers and men of the N. W. M. F., who lent the rooms and exerted themselves to make everything pleasant for the evening. Seconded by Mr. Moore. "God Save The Queen" having been sung, the Rev. Mr. Tims then announced the benediction and the company dispersed highly delighted with the evening's proceedings."

From a financial statement issued by Mr. Tims on December 2, 1887 for a tea and entertainment, it is interesting to compare the cost of the articles of food with the present day values: 2 turkeys \$1.50 each; ham 18c pound; tea 60c; sugar 50c; coffee 75c; 2 yards cotton 25c. The entertainment went in the hole to the extent of \$24.60. The members of the refreshment committee made up the deficit.

Members and friends of the church are cordially invited to attend the anniversary service next Sunday morning.

## THE WORLD OF WHEAT

(By H. G. L. Strange, Director "Crop Testing Plan.")

"Canadian wheat is not generally suited to the British market."

Such was the opinion of a leading British corn merchant concerning wheat from Eastern Canada in 1822.

"Manitoba No. 1 is the highest quality wheat in the world!"

But this was the opinion of the British Admiralty in 1876 when the first shipment of wheat left Western Canada.

What put this extra quality or "strength" into Western wheat in 1873 and what has maintained it there ever since?

It is the result of probably tens of thousands of years of stored-up fertility in our prairie soil, stored up much sunshine and a small annual rainfall which, while sufficient to produce a fair yield to the acre, is not heavy enough to wash the precious nitrates out of the soil.

As well it is the result of the activities of countless millions of workers, the micro-organisms that live in the soil, which transform the fertile humus and other elements into quality-making "soup," rich in nitrates, that in turn makes protein available to the plant.

All wheat varieties can absorb his rich "soup," but only a few particular varieties, it seems, are able to transform it into quality or "strength." The following forces have tended recently to push wheat prices up: Italy continues to import wheat freely; Denmark cancels taxes on im-

## SHORT SESSION TOWN COUNCIL DISCUSS CENSUS

At the last regular meeting of the Town Council all the members were present. W. Jeffers and J. O. Bogstie were also present.

A report from the medical health officer on premises inspected was read and the secretary was instructed to notify the parties concerned of the result. A report of the Department of National Defence on the condition of the two field guns—Great War Trophies—was read. The matter was referred to the town handy man.

The Canadian National Institute for the Blind asked that the council give consideration to a grant in support of the work of the institution. After discussing the matter a grant of \$10 was authorized.

An certain changes had taken place since the Dominion census was taken, the secretary was instructed to arrange to take a census of the town population and prepare the lists for the inspection of interested residents of the town, and to publish a notice in the paper as soon as the lists were prepared.

A number of new applications for relief had been made, some of these were by persons who had recently come to Gleichen from other municipalities.

port grain; Seeding backward in the Balkans and reduction in acreage expected; United States buys Argentina corn heavily; Finland needs large imports of rye; expected Spain will require large quantities wheat.

Prices have tended to decline because of: Record winter wheat acreage in the U.S.A. and crop in excellent condition; Wheat cutting in Australia now proceeding favorably; Indian rice acreage large (estimated at 78 million acres); Demand for Canadian wheat somewhat declining; Danubian countries concentrating on permanently holding export markets for local.

The writer of this article would be glad to answer any questions, within his ability, that farmers or others might care to submit. Address inquiries to H. G. L. Strange, Director "Crop Testing Plan," Room 357 Grain Exchange Building, Winnipeg.

## TWO LOCAL MEN CUT AND BRUISED IN CAR SMASHUP

Two Gleichen men were injured last Wednesday evening while returning from Drumheller, when their car was in collision with a car driven by Thos. McGuckie of Wayne. Mr. Woods had his face badly cut in several places which required 20 stitches to close, while Mr. Bogstie had several stitches taken in his hand and head to close wounds, both men were also otherwise bruised.

The Drumheller Review speaking of the accident says: "Mr. Bogstie accompanied by Mr. Ell Woods was returning home after a visit with Mr. Woods son Lawrence, Woods, of the Review staff, while Mr. McGuckie, along with his daughter, Miss Lillian McGuckie and his two grand-children were on their way to Wayne from Calgary. The collision occurred about eighteen miles out of Drumheller. Mr. McGuckie was rushed to the Wayne hospital, where he was reported to be recovering from lacerations and shock, and making favorable progress. Miss McGuckie, was cut about the face and is suffering from shock, was taken to the Drumheller hospital. Mr. Bogstie, who had to have several stitches in connection with a hand injury left the Drumheller hospital Wednesday evening, while Mr. Woods who had his nose and face cut will be able to leave the hospital Thursday. The grand-children of Mr. McGuckie escaped with a shakup up. The two cars were badly damaged through the impact of the collision Mr. Bogstie is the father of "Lefty" Bogstie the well-known baseball pitcher, who a few years ago performed so well for the Nacamas Club."

## Will the Act Function?

The people of Alberta are entitled to judge for themselves the unfairness and injustice of The Reduction and Settlement of Debts Act. This is the first of a series of short statements concerning the Act, and its effect on you.

Will the Act function? Be it just or unjust, will it work? There are cases pending in the Courts in which the question of the validity of the Act is raised. Until the decision of the Courts is rendered, it is natural that lending companies cannot be expected in the meantime to prejudice their rights. Companies have been and are still prepared, regardless of what the decision of the Courts may be, to enter upon negotiations and explore all avenues in an effort to arrive at arrangements fair to debtor and creditor, a course which was recently followed by companies doing business in the Province of Saskatchewan.

Debtors should think over their position, and the doubtful security the Act might provide, before brushing aside the undertakings they entered into when they obtained their loans. Those who are not debtors should think what their position will be in a community where promises are lightly cast aside. If you cannot trust your neighbor—if your neighbor cannot trust you—what becomes of security and the basis upon which business and all other human relationships rest?

This statement is one of a series written by The Mortgage Lenders Association of the Province of Alberta. It represents hundreds of thousands of small investments by typical Canadians. It seems to citizens of Alberta amount to some forty-five million dollars.

(The second statement in this series will be published in two weeks.)

## THOUSANDS ENDORSE THIS AMAZING NEW TRACTION TIRE

DOCTORS, rural mail carriers, farmers, milk and lumber truckers and others who used Ground Grip Tires last winter and spring enthusiastically declare them to be the greatest tire ever built for traction. From all parts of Canada come reports that the self-cleaning super-traction tread pulls through the worst road conditions.

Put a set on your car or truck for dependable, carefree winter driving. No increase in price. See the nearest Firestone Dealer today.

## Homework---How Much?

The present trend towards the reduction and perhaps ultimately the elimination of departmental, or external examinations for students in public and high schools is a step in the right direction, if for no other reason than that it should result as the corollary, in the reduction in the amount of homework demanded of pupils and especially those in their early teens.

Reports on the subject presented at the recent annual convention of the Canadian Education Association in Regina by a committee set up to study the subject of examinations in schools showed that the three prairie provinces, in confining departmental examinations to grade 11 and 12 students, that is in the last two years of high school, are in the van of the movement to curtail the evils resulting from the rigidity which such a system necessarily entails.

It is not difficult to divine that the curtailment of the external examination system will result in more moderate assignment of homework in the public schools and at least in the first two grades in high school. It has already done so to some extent, but even yet there is good reason to believe that in very many classrooms, both rural and urban, too much is expected from children after school hours.

And this is particularly the case where children in the last two grades of public school and the first two grades of high school are involved. Children of these ages have reached a critical, physical formative period and during these years are laying a health foundation which will serve them good or ill in adult years. During this adolescent period, while mental development must not, of course, be neglected, physical development should not be cramped by eliminating much needed opportunities for recreation and health-giving physical activity.

With the incentive of the teacher to pile up homework for the students removed by the abolition of departmental examinations in the public grades referred to, there is no longer any reason why children should be over-burdened, to the possible detriment of health.

This was recognized by the school medical officer of the London (England) County Council in 1929 when he wrote in his report: "It is clear that school authorities who take it upon themselves to set work which is not done under their immediate supervision take upon themselves a very heavy responsibility. It is their duty to consider the result not merely upon scholastic advancement but upon health and physique in every individual case, and in every individual case it is their duty to ensure that in every 24 hours, there is not only time for work, for meals, for physical exercise and for sufficient sleep, but also healthful relaxation and recreation."

In a handbook for one-teacher elementary schools the State Department of Public Instruction of Pennsylvania declares:

"In primary grades home study should not be necessary. After the child has acquired the art of reading he should be permitted his own choice to take books home and return them as he chooses to do. If any home study is assigned in the intermediate grades it ought to be very limited. It should deal with such informational subjects as history and geography, and the pupil should not be held responsible the next day for having done a definite amount of work. He should be urged to read in these branches."

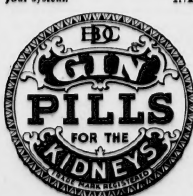

Discussing the same subject in a recent issue of *Hygeia*, under the caption, "Homework—The Big, Bad Wolf Of Education", J. F. Rogers made the following suggestion:

"Only work that can be done without help of parents should be assigned; home study should be made a privilege; it should not be too difficult; assignments should be made according to capacity and individual needs and for variety in subsequent class work; . . . home reading should be encouraged; homework should never be assigned as a punishment."

"In brief one may expect and must expect either injury to health or the exhibition of self-protective traits if the homework is either excessive or unsuitable, and there goes along with these results a waste of time which might be spent more educationally."

## Kidney Troubles

cause poisons to accumulate in the system and bring on persistent Backache, Lumbago or Rheumatism. Take Gin Pills to help the kidneys eliminate toxic waste matter from your system.

## Railways Aid Development

The greatest single factor in the development, not only of Vancouver but of the whole of Canada, had been the Canadian railway system, N. B. Walton, general superintendent of transportation, Canadian National Railways, western region said. He addressed the transportation and customs bureau of the Vancouver board of trade at a meeting commemorating the 100th anniversary of steam railway transportation in Canada.

An inventor has combined an electric lamp and clock having two upper parts that revolve against a needle, the upper end of which points to hour marks and the lower to minute marks.

## Unbuilt Liner Insured

Large Sum Placed On The Queen Mary's Sister Ship

The Cunard-White Star Line announced that Benjamin Wistar Morris, New York architect of the firm of Morris & O'Connor, had been retained as a consultant on the decorations of the projected new sister ship to the Queen Mary.

Grey Wormum, a Londoner, who designed the prize-winning building of the Royal Institute of British Architects, on Portland Place, has been appointed decoration architect of the new vessel. Mr. Wormum is one of a committee of three recently appointed to plan London's coronation decorations.

Insurance of more than \$3,250,000 has already been placed by British underwriters on the Queen Mary's sister ship, whose keel will soon be laid at the John Brown shipyard, Clydebank.

This is easily the largest amount ever placed on a single merchant ship in the course of its construction. Brokers in London are confident that the total amount to be accepted in the market will exceed \$3,500,000, thus leaving less than \$1,000,000 to be made up by the government.

Important London companies that declined to participate in the Queen Mary's insurance have taken large amounts on the new ship. A number of large firms in Liverpool, however, have thus far refused to accept their share, although it is hoped that they will come in before the books are closed.

The coverage will take effect at the beginning of next year and run for not more than 36 months. Building risks are distinct from service risks and apply only while ships are under construction.

## WAKE UP YOUR LIVER BILE—

And You'll Jump Out of Bed in the Morning Ravin' to Go

The two pounds of fluid he into your bowels daily. If the bile is not flowing freely, it takes those good, old, old-fashioned pills. It just decays in the bowels. Gas builds up, your stomach is full, and you feel sour, and the world is full of pain.

A more bowel movement doesn't always get on the liver as it takes those good, old, old-fashioned pills. It just decays in the bowels. Gas builds up, your stomach is full, and you feel sour, and the world is full of pain.

Menu For Eskimo Prisoners

Revised Regulations Sent To Mounted Police In Barren

If you are an Eskimo and if you are a prisoner of the R.C.M.P. away up in the barrens and if you ask for the menu, this is what you'll get, Monday, Tuesday, Wednesday, Thursday, Friday, Saturday and Sunday:

Two pounds of salt pork, fourteen pounds of flour, seven pounds biscuits, three pounds rolled oats or beans, one pound lard, eight ounces baking powder.

The foregoing rations are per day. They are just announced by the Canada Gazette in a list of revised Mounted Police regulations.

## The Sunflower

Was Used As Food By North American Indians In Early Days

The sunflower, which is cultivated in Canada mainly for feed for birds and poultry, for ensilage as cattle feed, and as an ornamental plant, is generally recognized as indigenous to North America. It was used as food by the North American Indians, the seeds being eaten raw, or pounded and mixed with other seeds into fat cakes which were dried in the sun.

In 1615 Champlain found the Indians in the vicinity of Georgian Bay cultivating the sunflower. The oil which they obtained from the seeds was used for their hair.

The cheapest violins are those manufactured in Japan, where the parts are pressed out of wood, instead of being carved by hand.

## ..chest COILS

## New Helicopter "Plane"

B.C. Man Claims Test Of Latest Model Is Success

A new type of helicopter flying machine is undergoing final tests by its inventor, John Hess, at New Westminster, B.C. The inventor claims it is the first successful helicopter for all practical purposes; that it can be lifted and lowered vertically in the air.

During the past 15 years Mr. Hess has studied aeroplanes and done a great deal of building and experimenting. He stated tests of his latest aeroplane had been successful, and that the machine could be kept in the air as long as he wished.

The aeroplane weighs a ton and is powered with a 210 horsepower motor. There are two propellers, one in front and the other at the rear, revolving on vertical shafts.

Each propeller has four blades and is shaped like an umbrella. The forward shaft may be thrown into a horizontal position to drive the aeroplane forward once it is in the air.

The secrets of the machine are well guarded. It is the third helicopter made by Mr. Hess. The first was a model and later he experimented with a 100 horsepower motorized machine.

## Queer Broadcast Reception

Alberta Folks Hear Musical Program Without Receiving Sets

Mysterious music that "came out of a clear sky" baffled four road workers near Dods, Alta., about 40 miles southeast of Edmonton. They said it was a radio program from Edmonton but there were no receiving sets "for five miles around" where they were working.

Startled by the music, A. J. Thorsley, R. Gjerde, H. Vergette and R. Fietore thought there might be an automobile in the vicinity but search revealed nothing.

They proceeded to a farm house more than a mile distant where they found Mrs. G. Sanstrom who claimed she had also heard the music but had feared to mention it, thinking people might wonder about her sanity.

As the workers were making further "investigations," the music ceased as suddenly as it had started, they reported. The music had continued as they walked toward the distant farm house.

The program from nowhere eclipsed the story of the Lindsay, Ont., farmer who heard melodies from his stove, and other reports of tunes coming from kitchen sinks.

## SHE DREADED GOING UPSTAIRS

Woman's Fear of Rheumatic Pains

One of the many troubles that afflict rheumatic sufferers is the difficulty of getting up and down stairs. Such was the case with this woman, before she started taking Kruschen, but now she finds it no trouble. Read what she says—

"I have been taking Kruschen now for over 12 months, a half-teaspoonful in hot water first thing in the morning, and I feel a new woman. I had very painful rheumatism in my knees and back and also my head was getting very bad. I used to dread walking upstairs, now I am very thankful to say it is no trouble at all and I scarcely have any pains. I feel better in health than I have done for years."—(Mrs.) G.M.

Two of the ingredients of Kruschen Salts are notable for their work in dissolving uric acid. Other ingredients of Kruschen assist Nature to expel the dissolved acid from the system.

## Decorates Ceiling With Stamps

English Barber Uses Thirty Thousand To Work Out Design

To make his customers "ceiling conscious" when being shaved, Robert Paterson, an enterprising barber of Worthing, Kent, England, has decorated the ceiling of his shop with 30,000 postage stamps.

The stamps came from all parts of the world, and are arranged in intricate designs. In the centre is the Worthing crest of arms, and the collector's own "crest," consisting of a pair of scissors, a comb and razor.

## Boys Of The Roll Brigade

"Marching Along Together" are the wise roll-your-owners who insist on full satisfaction from every cigarette they roll—and get it with Ogdens' Fine Cut.

Why not join their ranks? Times are better, you know, and Ogdens' is the better tobacco—always cool, mild and fragrant—the one fine cut that always satisfies every member of the "roll" brigade.

Yes, you'll enjoy Ogdens' and you'll appreciate the purple easy-opening ribbon that removes the Cellophane on the Ogdens' package. Remember, also "Chanticleer" and "Vogue" are the best papers!

**OGDEN'S  
FINE CUT**

P.S.—Your Pipe Knows Ogdens' Cut Plug.

## A Cheerful Note

The Lethbridge Herald says the spectre of southern prairie cattle dying by thousands this winter is vanishing. A lot of our cattle have gone to markets east, west and south, some for immediate slaughter and the rest for feeding. The open fall has served to allow those still on hand to find their own living. It would appear that we are going to come out of the livestock situation better than we thought.

Forgery losses in 1928 were estimated at \$200,000,000.

## To Quickly Ease Pains of Rheumatism

## "Aspirin" Tablets Dissolve Almost Instantly

In 2 seconds, by stop watch, an Aspirin tablet starts to disintegrate and go to work. Drop an "Aspirin" tablet into a glass of water. By the time it hits the water, the tablet is dissolving. What happens in the glass glass . . . happens in your stomach.

## Ask Your Doctor About "ASPIRIN"

Any person who suffers from pains of rheumatism should know this: Two "ASPIRIN" tablets, taken with a full glass of water, will usually ease even severe rheumatic pains in a remarkably short time.

Ask your doctor about this. He will probably tell you there is nothing better. For "Aspirin" tablets not only offer a potent analgesic (pain reliever), but start going to work almost instantly you take them. Note illustration of glass.

Try this simple way. You'll be surprised at how quickly pain eases. "Aspirin" tablets are made in Canada. "Aspirin" is the registered trade-mark of the Bayer Company, Limited, of Windsor, Ontario. Look for the name Bayer in the form of a cross on every tablet.

FOR SALE—50 bushels potatoes (Net 6m.) P. Powell Bussano. 38

MEN WANTED—For nearby Rawleigh Routes of 800 families. Write Rawleigh's Dept. WG-59-SB-K, Winnipeg, Canada. 37

A very successful tea was held in the Legion hall under the auspices of the Junior W. A. of St. Andrew's Church. The girls realized the sum of

\$25 from their sale. Mrs. P. eshayes, the Junior Superintendent acted as convener, while Mrs. J. F. Gorrell acted as secretary-treasurer. Those who assisted in the kitchen were Mrs. W. Varnell and Miss Marion Varnell. The home-cooking table was in charge of Dorothy Bogie and R. Halstead while Vivian Pythian and Grace Denhayes looked after the sewing table. Assisting at the tea tables were: Miss Rachael James, Miss Peggie Bogie, Miss Norma Halstead and Miss Marjorie Gorrell, while Miss Eileen Collins acted as hostess.

The annual dance sponsored by the Gleichen Branch of the B.E.S.L. proved to be a real success. Jack Brenner's orchestra from Namska was in attendance. Owing to the good weather a good representation from

out-lying towns was present—some coming from Hussar, Chancellor, McKee, peace, Standard, Cluny and Arrowwood. Supper arrangements were in charge of Mr. and Mrs. Fred W. Jones. Bill Creighton of Cluny acted as floor-manager.

## Town & District

The pupils of the High School held a dance Friday evening and judging from reports all had a good time.

The sale of wreaths and poppies on Poppy Day realized for Gleichen and district the sum of \$40.00. This is more than the amount taken in last year.

The Junior W. A. of St. Andrew's Church took this opportunity of thanking all those who so generously contributed to their Tea on November 14. The sum of \$26 being realized.

Thomas Albert Johnston of Eventide Home died last week, burial taking place in Eventide cemetery. Funeral services were conducted by Adj. Sutherland and assistants. Mr. Johnston had resided at the Home for some three years, coming here from Lethbridge. He was 68 years of age and by occupation a farmer.

Brenner's well known Old Time Orchestra will supply the music at the Old Timers Dance in Gleichen on 27th November. In the orchestra will be four players who have had experience broadcasting over Calgary stations including "CJ" on the violin who is considered the most outstanding artist on old time music in the province. For several years he broadcast over Grant's station in Calgary and his old time programs were widely listened to and appreciated.

The W. A. of St. Andrew's Church held a meeting at the home of Mrs. A. G. B. Lewis, with twelve members present. Mrs. J. E. Ostrander occupied the chair, while Mrs. J. F. Gorrell acted as secretary in the absence of Mrs. Egles, who has been acting secretary while Mrs. S. E. Dufoe is away. Arrangements were made for a Shover Tea to be held at the home of Mrs. T. H. Beach on Thursday, November 19th and the annual bazaar on the 21st, instant, which is expected will be held in Dufoe's Coffee Shop. A very dainty lunch was served by the hostess at the conclusion of the meeting.

A farewell party was held at the home of Mr and Mrs. J. Gorrell in honor of Lorna, Marion and Wallace Smith, who have since left for Delta, where Mr. Smith took up a position with the Crown Lumber Company. The guests of honor were presented with some books and beads. The little guests present were: Norma Halstead; Marion, Lorna and Wallace Smith; Gordon Johnston; Ethel Bates; Pauline Sutermeister; Joy Sutermeister; John Rodominski; Allan Rodominski; Peggy Bogie; Eileen Gorrell; Jimmie Gorrell; Marjorie Gorrell; Ted Varnell; George Vandell; Eileen Collins; Donna Jean MacCallum; Ronald Halstead; Miss Winnie Carriek; Miss Lilly Carriek and Miss Freda MacCallum.

the man's wife that her husband had got out of the Bible and into the newspaper some time before. From reports that are repeatedly coming to our ears the majority of people today have substituted the newspaper for the Bible. If past history in older civilizations has any message for us, it is not that the moral decline in recent years can be traced very largely to ignorance and neglect of the Scriptures and a substitution for it of other ethical standards. Facts re this whole question will be given Sunday night. The public is invited.
